Completing a CIA

- A CIA will help you to identify the potential **impacts, risks and benefits** of your proposed policy, service or project. Doing this at an early stage enables engagement and research to be undertaken to identify actions that will either **lessen the risk** or **maximise the benefits**. The assessment will also help you to identify mitigating factors whereby risks may be balanced out to an extent by the benefits.
 - This template should be used to support the development of a proposal during the **planning stage**, therefore supporting the council's approach of [Achieving Commissioning Excellence](#).
 - A good CIA will involve input from more than one person. A **Project Team** should be identified with different, but relevant expertise to ensure that a full range of views are considered.
 - **Engagement and/or consultation** should take place with appropriate and representative groups of people that are most likely to be affected. This must then be used to help shape the design/outcomes of the project. Please note that due to the publication of CIAs, it is advisable not to record personal details of members of the public, such as names or addresses.
 - **Once completed**, the main findings from your CIA should be transferred to the '**Checklist and Executive Summary**' template. Then both documents need to be approved/signed off by the appropriate people. Depending on the size of your project, this could be your manager, project lead, sponsor or SLT.
 - For CIAs that are going to **Cabinet**, only the '**Checklist and Executive Summary**' will be uploaded as part of the **Cabinet Papers**. The full CIA document will be uploaded as a **Background Paper**.
