Integrated Care Hubs

Delivering co-ordinated care for the people of Staffordshire & Stoke-on-Trent

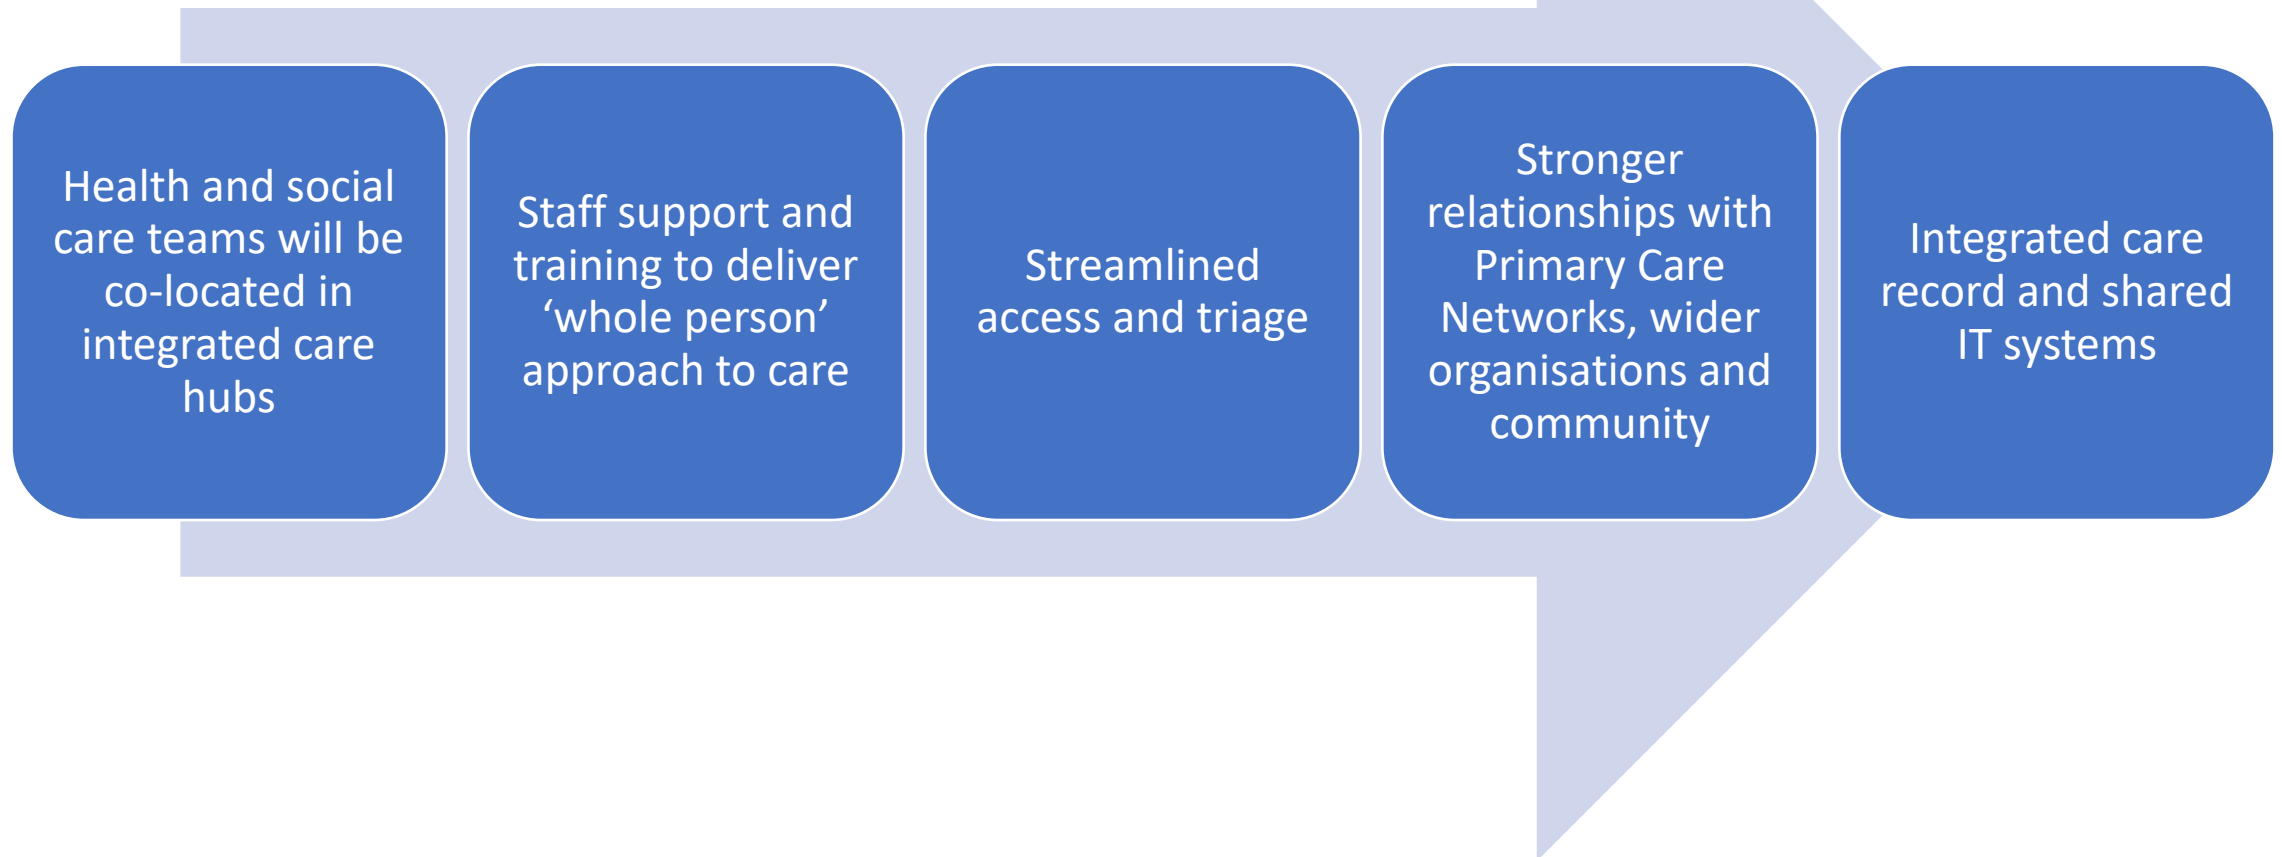

Adam McKeown
Operations Director
MPFT

The living well model

The journey towards integrated care

Each hub will offer

Long-term condition specific services, including specialist nursing, rehabilitation, education and therapies

Mental health services, including memory clinic, dementia services and mental health care of the elderly consultant input

Frailty provision, including care of the elderly consultant in-reach, falls services, specialist therapies, palliative care teams and care home support

Intermediate care, including Home First, therapies and community wellbeing teams

Specific services

Community nursing incorporating district nursing and community matrons

Specialist nursing – respiratory, diabetes, heart failure

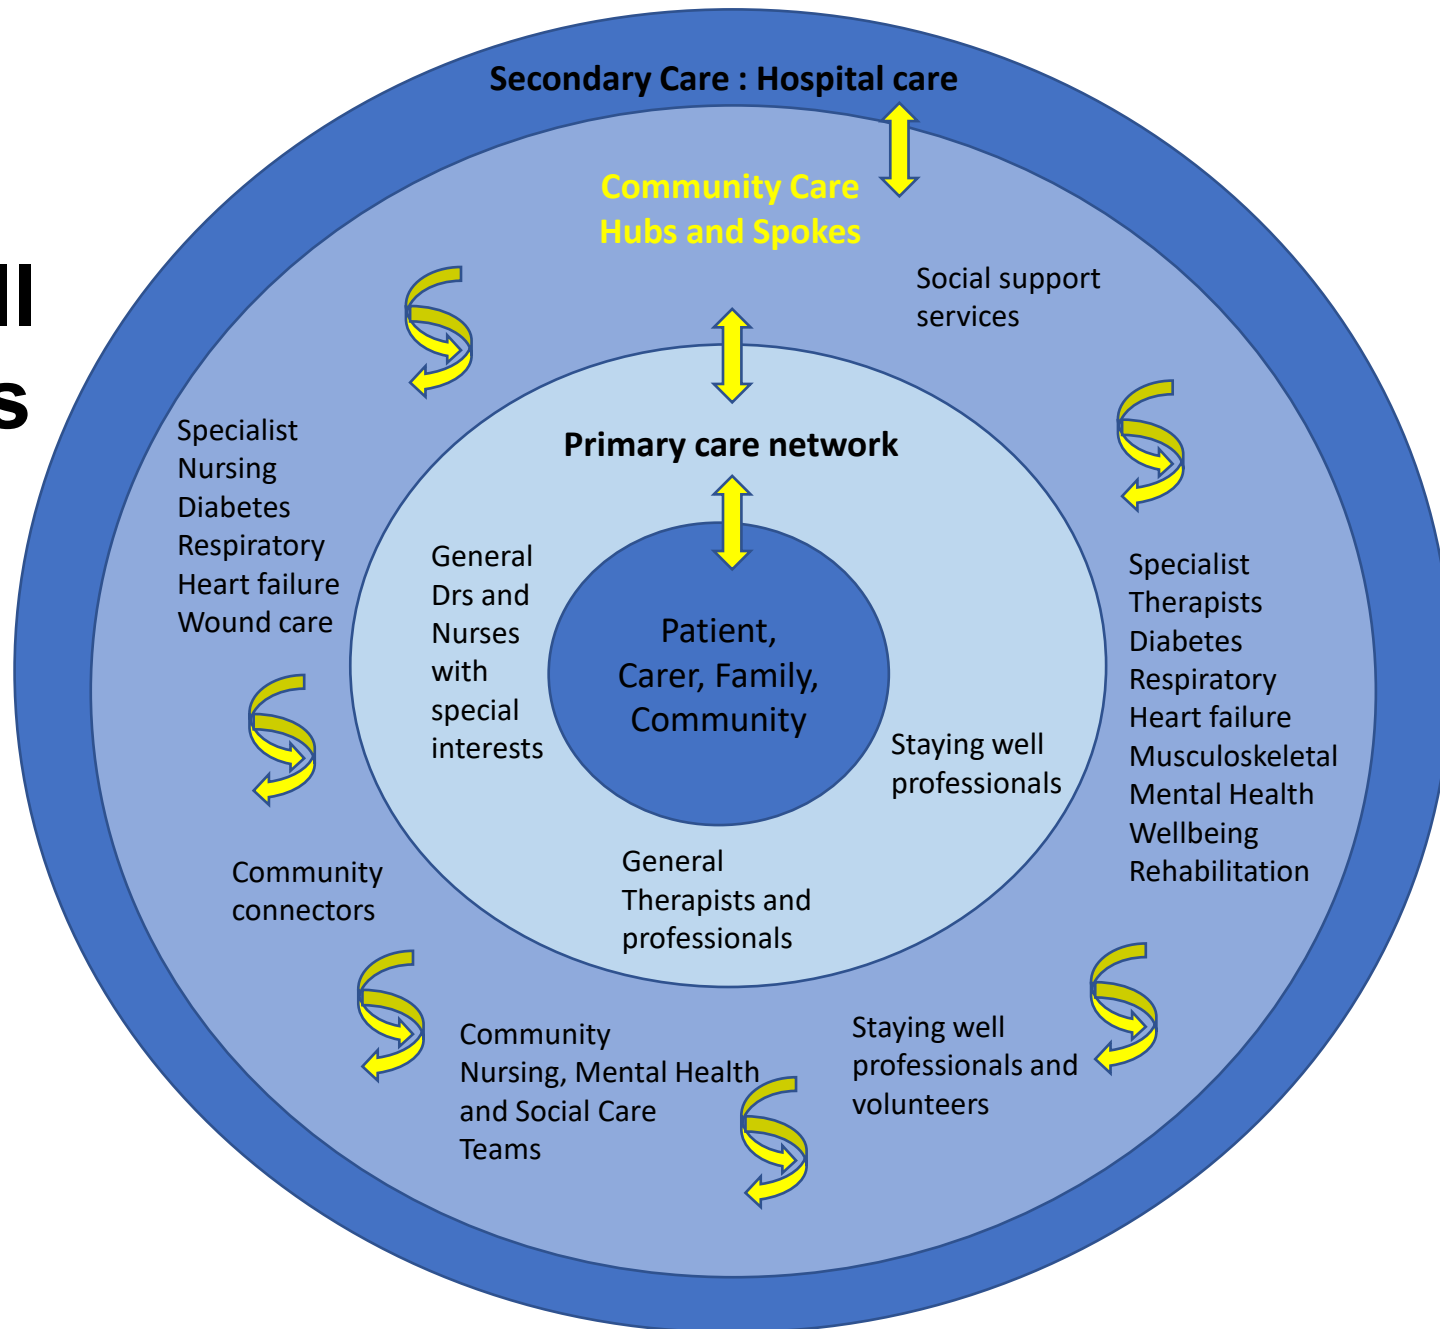

Pulmonary rehabilitation

Home oxygen

Occupational therapy

Physiotherapy (with wider Musculo Skeletal (MSK) spokes)

Each integrated care hub will have spokes

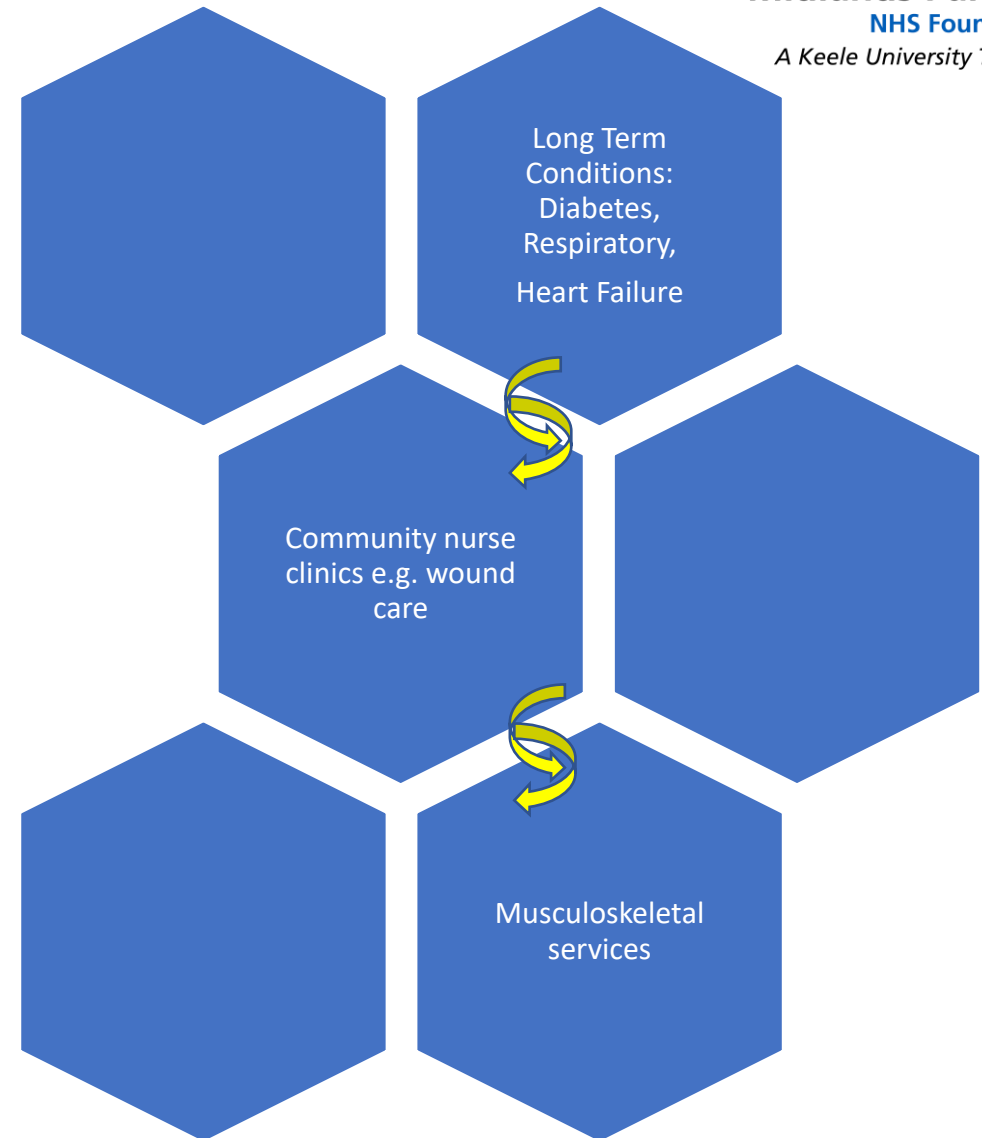

A spoke is a smaller base from which services will be delivered

Where will we start?

Our integrated service offer will begin with a focus on the design and implementation of multi-disciplinary team (MDT) clinics in relation to

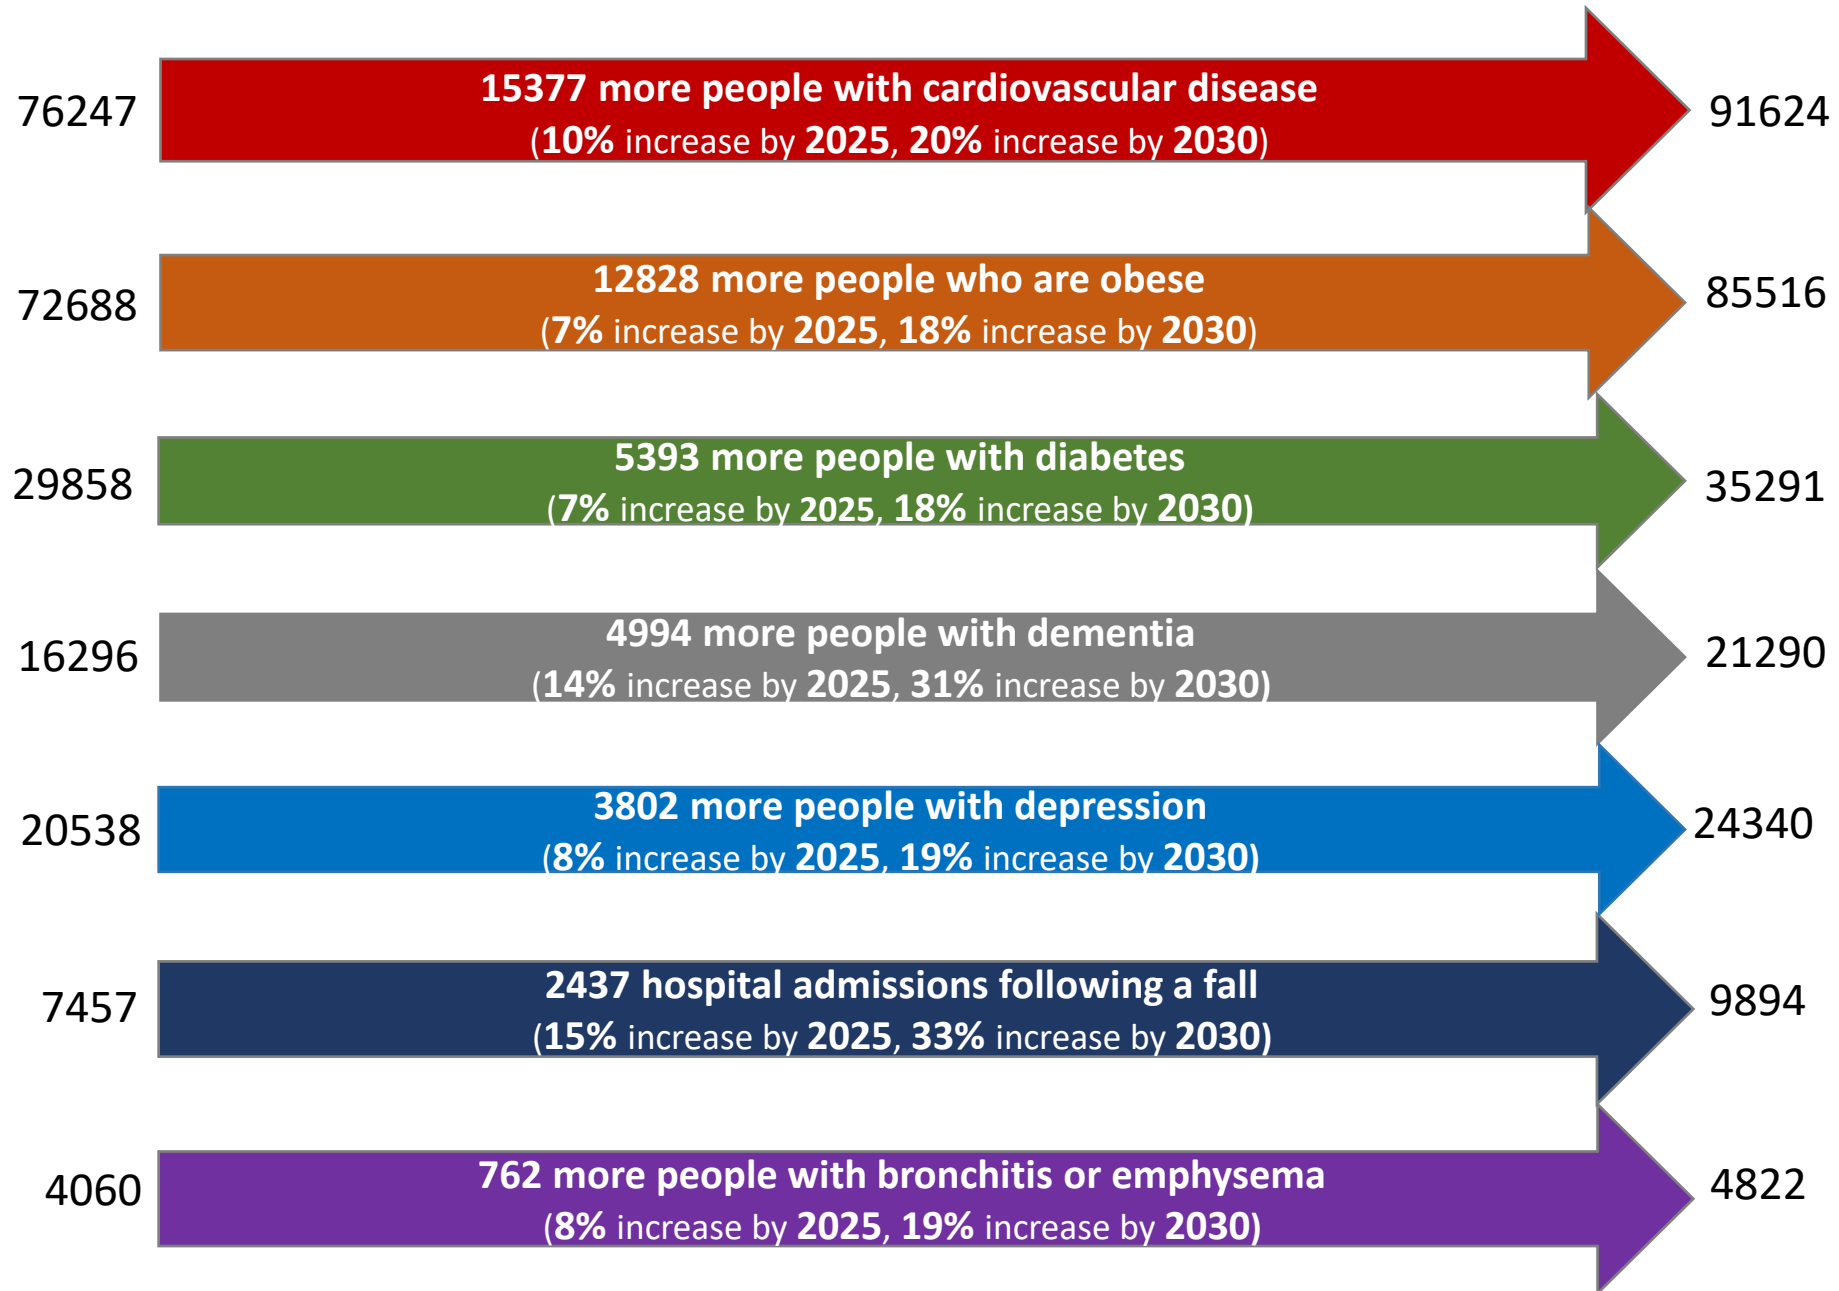

- **Long Term Conditions (LTC),**
- **Community Nursing/Wound Care and**
- **Musculoskeletal services**

Why we chose long term conditions

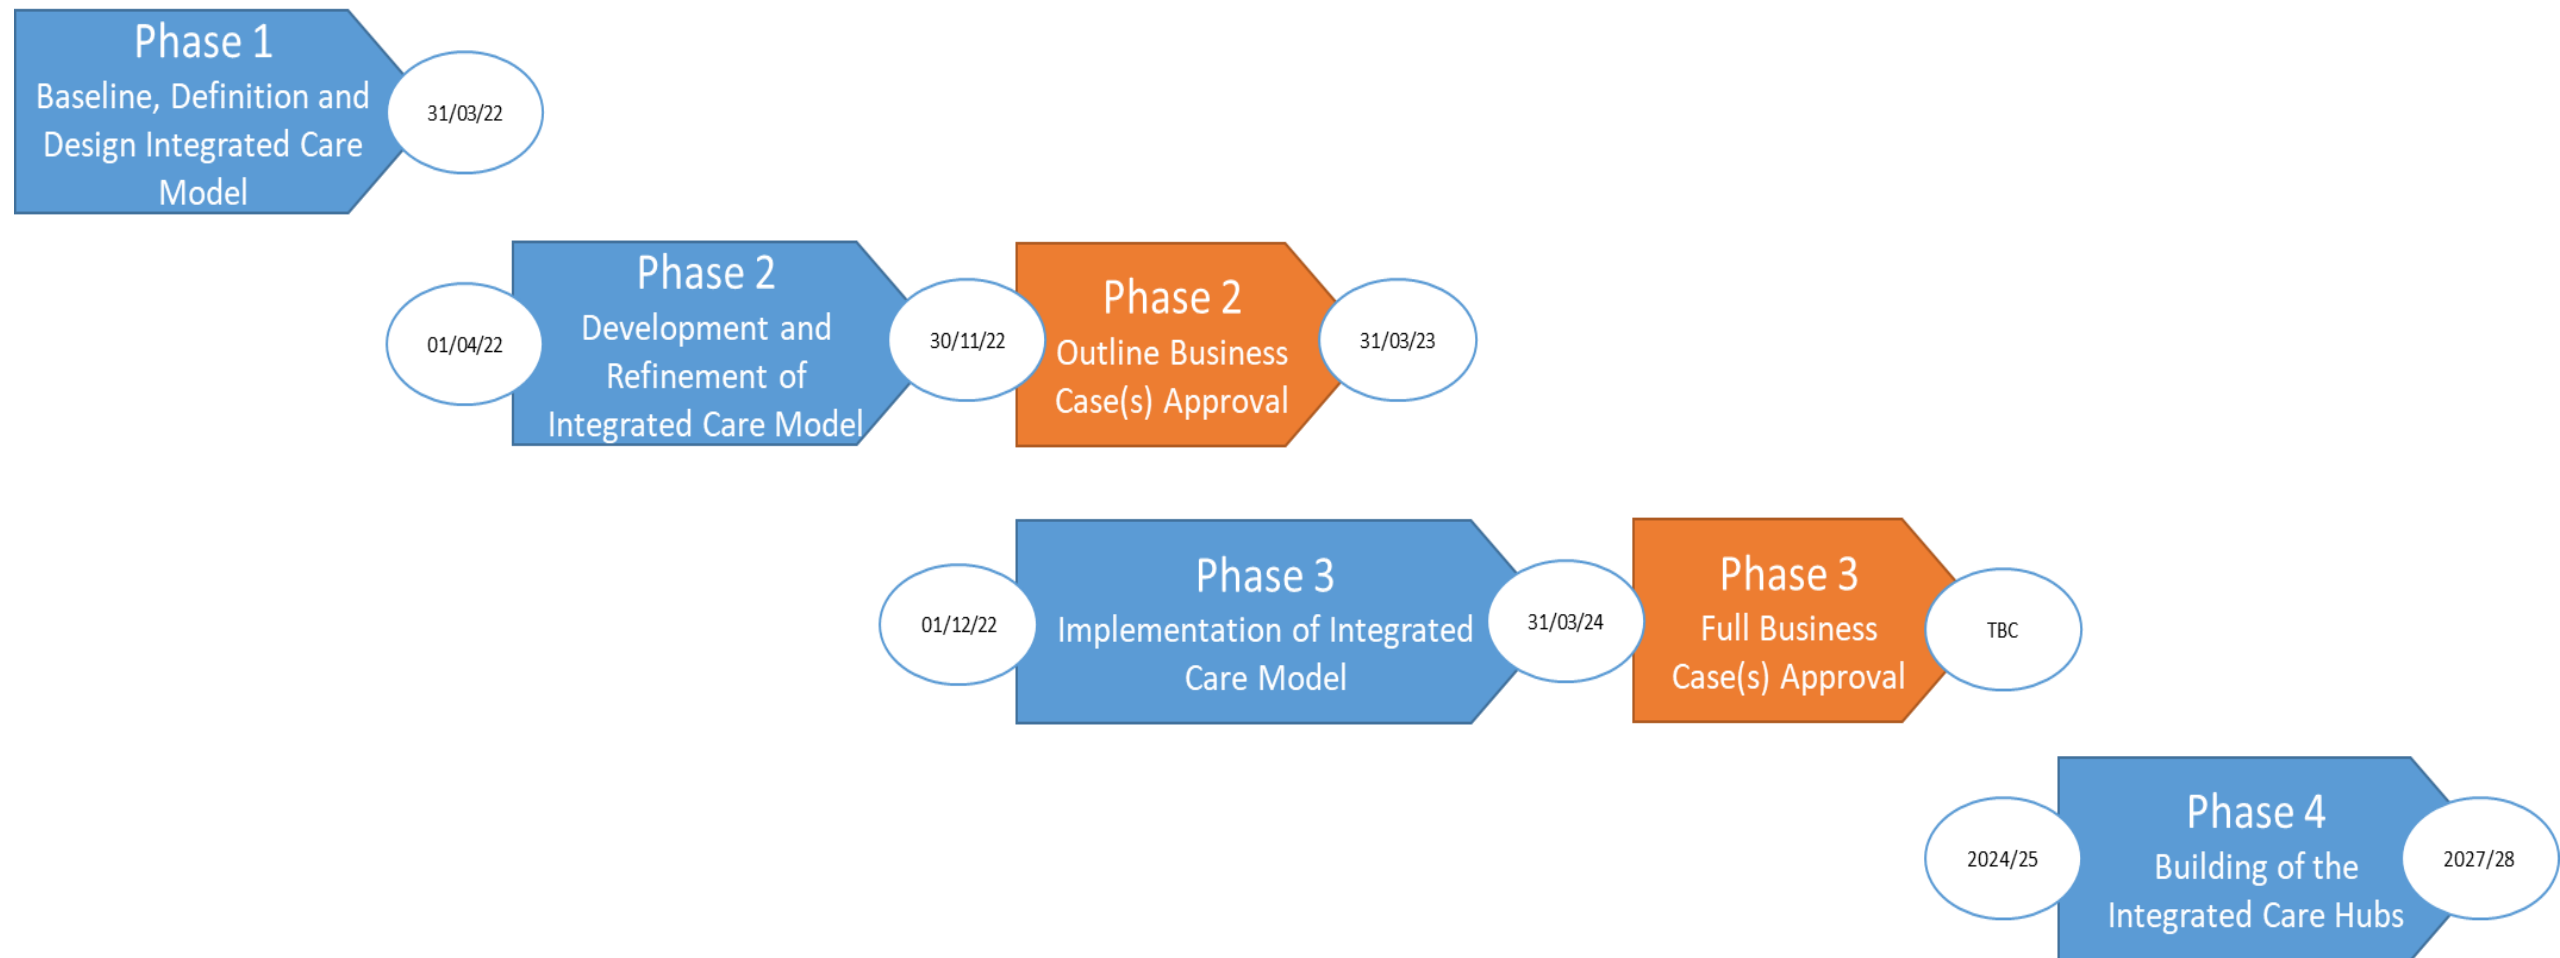

2020

2030
