Dear [REDACTED],

LR 610 G.

Application to add a footpath between FP11
and Bridleway 0-1287 Cottlechurch parish.

IF you recall, you had written to me on 4th July 06 requesting that I wait until planning consent had been granted before I request priority consideration for the application.

Planning consent has been granted for the provision of sports pitches and considerable alterations to ground levels which will completely remove the path. This work is due to begin in the spring.

The planning application reference is -: 06/06113.

Please can you therefore consider priority consideration for the application. It seems to satisfy point a and b on the criteria. As regards point b, there will be considerable confrontation between path users and people playing sports on the field. Please can you contact the owners which I had served a notice on, pointing out that an application has been

made and the difficulties that they
will create for the public and
themselves if the path is not safeguarded
from the development.

Many thanks.

Yours Sincerely
