Returns from the investment strategy, over time, are in line with or exceed the investment return assumptions in the Fund's Funding Strategy Statement; subject to market conditions and strategy implementation.	Continue to facilitate the review of the Fund's investment strategy, focusing on key aspects of investment structure, to ensure it remains fit-for-purpose as the Fund approaches full funding and in the context of market changes.

Deliver an investment approach that reflects the Fund's cash flow position, and likely evolution, and minimises the risk of forced divestment.	The Fund has sufficient liquid cash flow to allow members benefits to be paid as they fall due.	Monitor, and alert the Fund, to new investment opportunities that would improve the likelihood of the Fund achieving its objectives. Ensure investment advice takes the whole Fund position into account, including the impact on funding and contribution rates.

Advice has a focus on key risk / return priorities. Any areas of misalignment with the Fund's objectives and/or poor performance highlighted are challenged and solutions identified.	Ensure investment decisions taken by the Fund are informed by a full analysis of the key risks, return expectations and costs of available investment options. Advise the Fund on the attractiveness of third-party investment options and the benefits/potential opportunity cost of investing via the pool.
