Printed and Published by the Director General at the Ordnance Survey Office, Southampton.

The altitudes of bench marks and surface heights are given in Feet above the mean level of the sea at Newlyn, and are based on the revised primary levelling of 1912-21.

Altitudes indicated thus (B.M. 54.7) refer to bench marks on buildings, walls, &c., those marked thus (-) preceded or followed by the height, to surface levels.

The contours on this map are referred to the old Ordnance Survey Datum, i.e. assumed mean sea level at Liverpool, and are not based on the revised primary levelling of 1912-21. There may thus be discrepancies of some inches between the contours and the bench marks and spot levels.
