

Health, Wellbeing & Independence Dashboard

% of Care Act assessments of new clients completed in 28 days and number of requests received per month

Performance remained above target in July and August 2023. Where assessments are not completed in 28 days, this is usually because they are more complex. The council tracks these individually to ensure that progress is being made to determine appropriate care and support arrangements, and that any risks are being mitigated.

Source: SCC

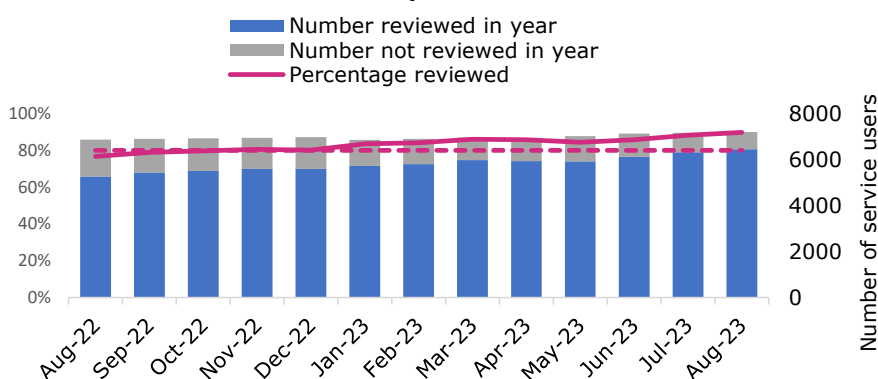

The number of safeguarding contacts has increased, and initial analysis indicates that this is partly due to an increase in lower risk contacts. It is not apparent that there has been an increase in risk of abuse or neglect to adults within Staffordshire. Additional temporary resource has been allocated to the service and pathways are being reviewed to identify any further improvements that can be made.

% of safeguarding referrals closed or assigned within 5 working days

Source: SCC

Overall % and number of people who have been receiving services for 12 months or over, who have had a review in the previous 12 months

Performance has remained above target in Quarter 2. Where people have not been reviewed within 12 months this may be because they were unavailable (for example in hospital) or because of insufficient capacity, which is being addressed. However if overall demand increases, resource may need to be diverted to higher priority work.

Health, Wellbeing & Independence Dashboard

Timeliness of sourcing for brokerage (helping individuals to arrange care) has remained high in Quarter 2 with 94.1% receiving timely access to care in August 2023, and performance remaining 'green' for the service. This is the best performance for 3 years.

% of brokerage sourced within agreed timescale by service type

Source: SCC

% of care providers with CQC ratings of Good or Outstanding by provider type

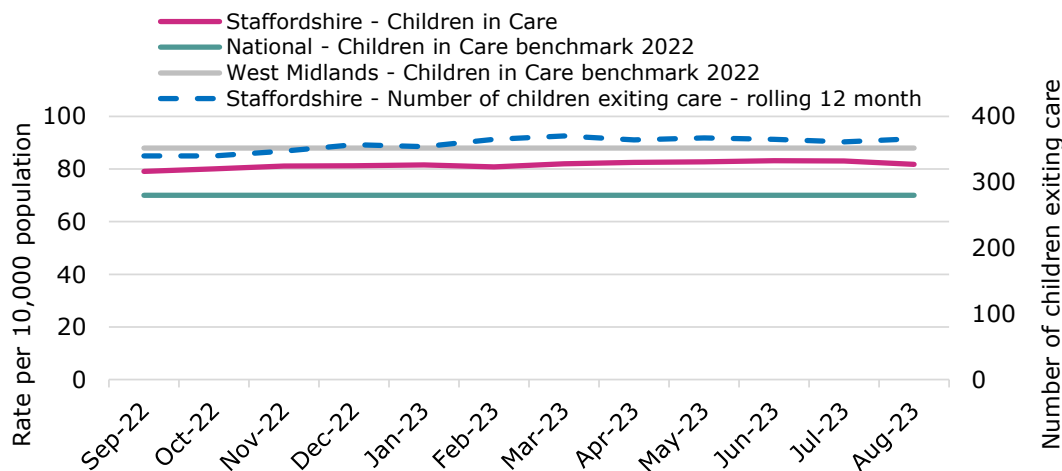

Source: SCC and Care Quality Commission

There has been a slight decrease in Quarter 2 of Care Quality Commission Good or Outstanding assessment ratings of Staffordshire's registered locations, with 81.3% Good or Outstanding in August 2023 (81.3%), however this remains above the regional average (77.8%).

Rate of children in care (rate per 10,000 population) and number of children exiting care

As at the 31st August 2023, there were 1,375 children and young people in the authority's care; a slight decrease compared to the previous quarter (1,397). To help address demand those past exit dates are regularly reviewed to understand any barriers to exiting care and agree any action that might be required.

Rate of children subject of a Child Protection Plan (per 10,000 population)

The number of children subject of a Child Protection Plan at the 31st August 2023 was 694, down from a peak of 716 in April but an increase from a more recent low of 649 in June.

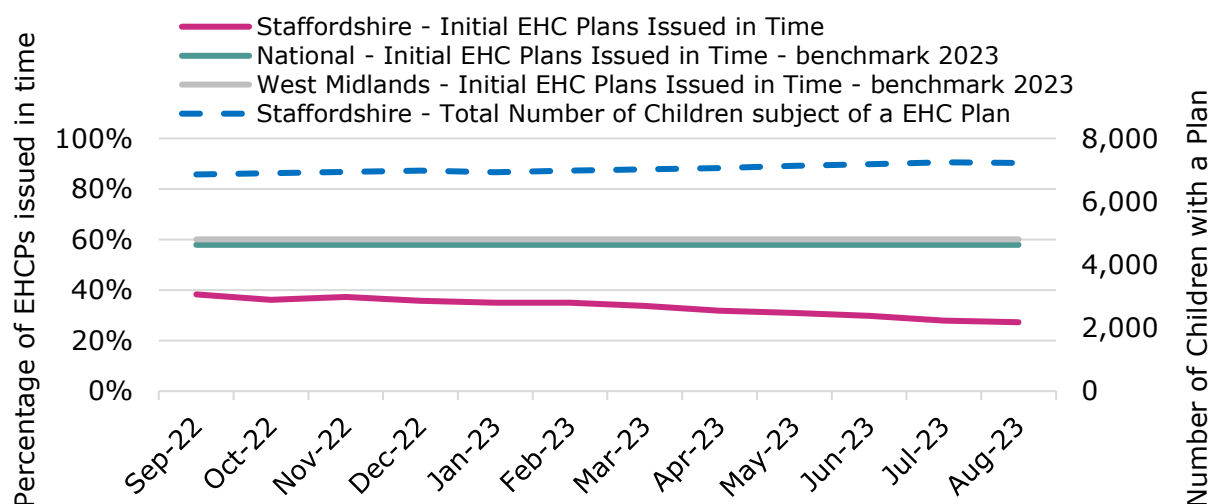

Rate of children referred, rolling 12 month average (per 10,000 population), and % re-referred within 12 months

Referrals continue to remain below both national and regional benchmarks. In Staffordshire, 15.3% of children have been re-referred within 12 months as of August 2023 (compared to latest national benchmark of 21.5% in 2022).

Offer the Best Start in Life Dashboard

% of Education, Health and Care Plans issued in time (12 month rolling avg), and total number of children with a plan

Source: SCC and Local Authority Interactive Tool (LAIT)

The number of children and young people with an Education, Health and Care Plan (EHCP) was 7,227 at 31st August 2023 compared to 6,792 a year earlier. This increasing demand means that the number of EHCP's issued in time (within 20 weeks) remains low in Staffordshire; 27% compared to the most recent national benchmark of 58% (2023). Recruitment has been taking place to assist in improving timeliness of EHCPs and support early intervention.

Supporting Families Programme - Reported successful family outcomes in 2023/24 (Cumulative)

At the end of Quarter 1, 34% of the Department for Levelling up, Housing and Communities (DLUHC's) annual target has been achieved.

Climate Change, Environment & Sustainability Dashboard

% of waste recycled and tonnage of waste disposed of by method

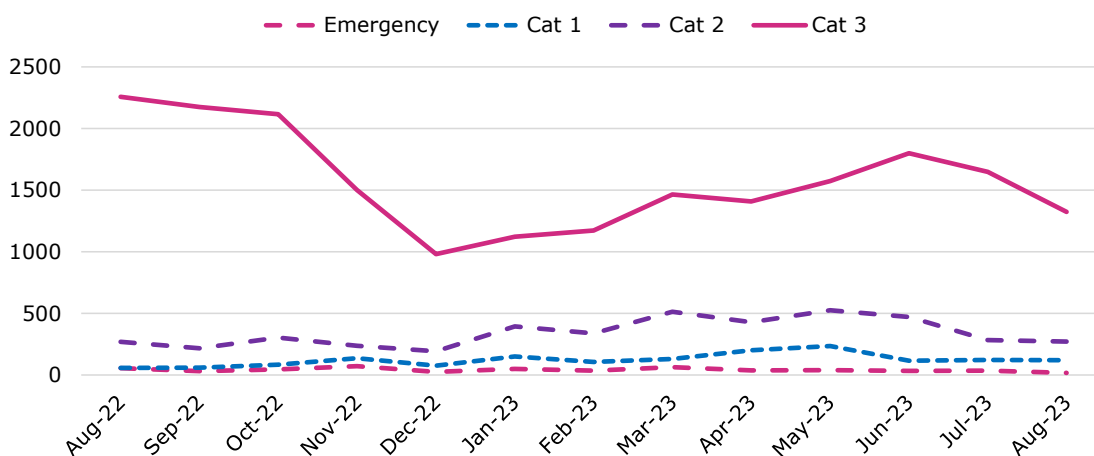

Source: SCC

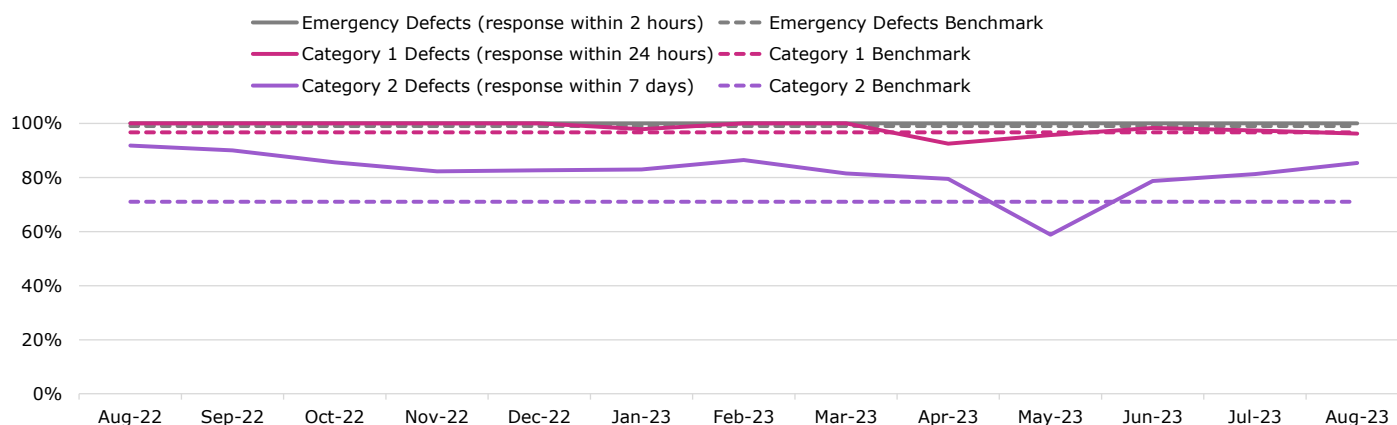

The recycling rate increased again in Quarter 1 following the usual reduction during the winter, partly due to less composted waste in the winter months. Staffordshire continues to send minimal waste directly to landfill.

Roads, Transport and Digital Connections Dashboard

Number of safety defects identified each month

% of Emergency, Category 1 and Category 2 defects repaired in time

Source: Amey, Confirm

There were demand challenges in relation to the volume of high risk 'Emergency' and 'Category 1' highways defects identified in Quarter 2, with a 39% increase from 213 defects identified in July and August 2022 to 296 in July and August 2023. The timeliness of repairing these higher risk defects has improved following the post-Winter dip in Quarter 1, where performance has returned to levels above benchmarks.

% of premises with Gigabit capability

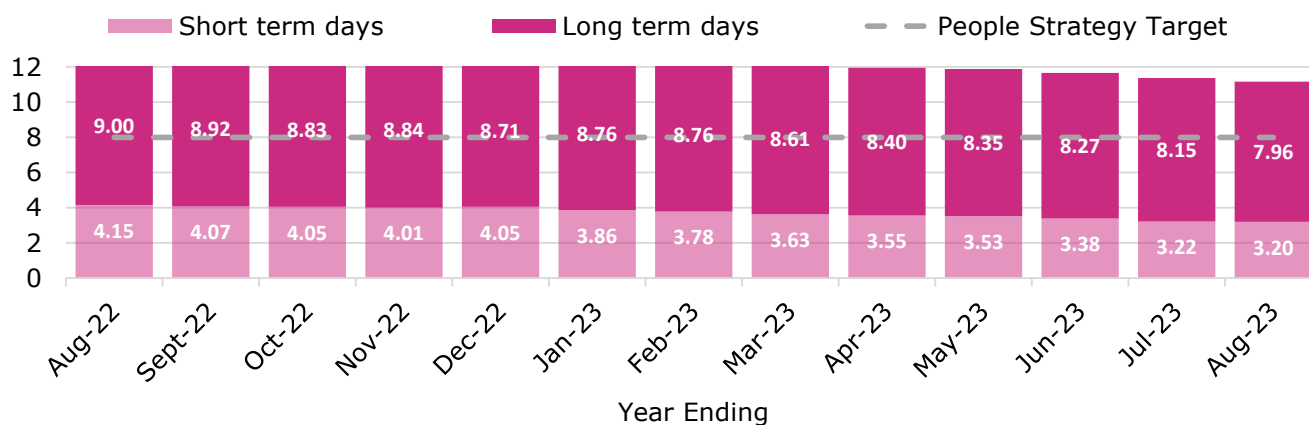

The percentage of premises with Gigabit capability continues to increase, with a target of 85% by the end of 2025 and close to 100% by 2030. It is not appropriate to benchmark against other areas due to differing approaches in rolling this out.
