Dear Sir

I really are it much help as I have it been down where this path is for years, but I have been told it floods in winter sometimes also is quite dangerous. With these paths that horses use we get alot of nuisance from Motor Bikes they even bring them on trailers to ride round.

It is quite dangerous to step out on to our unmade road where we live also if we complain we get abuse also damage to our fences etc so I would prefer to remain Neutral

B.M. Peppet.
