11th September 1994

Dear Mr-Bradbury.

Re your letter

8/9/94.

We intend to claim the route currently being used by the public. That is the way we have always used. It was because you suggested marking the path to Springwood Rd that I marked it on path 39.

Yours sincerely

P J Whalley (Mrs).

Your Ref:

Date: 14 September 1994

Dear Sir,

Application for the Upgrading of Public Footpath No. 73, Audley Rural Parish and
Public Footpath No. 39, Newcastle Town to Bridleway Status

I refer to my letter to you dated 5 September 1994 in connection with the above.

A recent inspection of the site has revealed that the line of public footpath no. 39 is difficult to follow on the ground and the public appear to have been using an alternative route (shown coloured green on the attached plan). I have therefore consulted the applicant, Mrs. Whalley, on this matter and she informs me that it was her intention to claim the route shown coloured green on the attached plan rather than the line of public footpath no. 39.

I trust that you will amend your records accordingly.

Yours faithfully,

for County Clerk and Chief Executive
