

Appendix 1 – Infrastructure Plus Outcomes, July 2021

Staffordshire County Council - The Staffordshire Vision:

“A County where big ambitions, great connections and greener living give everyone the opportunity to prosper, be healthy and happy”

Our pledge: Deliver value for money for residents and business and live within our means.

Have access to more good jobs & share the benefits of economic growth- Positive impact on jobs and growth - increased value and prosperity

- Enable developments through new infrastructure
- Improve network availability
- Increase opportunities for Staffordshire residents and businesses

Be healthier and more independent for longer - Everyone in Staffordshire has a great start to life and can live and age well

- Keep the network in good condition
- The public realm is improved and enhanced
- Build community resilience
- Enable healthier and sustainable travel options

Feel safer, happier and more supported in their community Customer focused – enhancing public engagement and satisfaction

- Keep the network safe for all users
- Improve resident engagement
- Improve customer satisfaction in Staffordshire County Council and to enhance its reputation
- More free flowing network

A sustainable and successful partnership

- Ensuring that we keep people safe from harm and empower everyone to deliver and grow
- Innovating, collaborating and sharing knowledge and best practice adapting to the changing needs of the operating environment
- To reduce the cost of delivering infrastructure services to reach the lowest whole life cost of asset ownership

Think climate change in all we do to limit our impact on the planet

- Take action to reduce waste generation, re-use items where possible, improve local recycling infrastructure
- Reduce building energy usage, vehicle emissions, overall carbon impact and increase utilisation of renewable energy
- Increase sustainable travel, reduce travel by fossil fuel vehicles, improve infrastructure for more sustainable travel
- Flood prevention/mitigation, adapt to climate change, carbon sequestration
- Enabling understanding of climate change, empowering positive service provision, be more efficient in the energy we use.
